

Debbie de Mornay Penny

Debbie was born in Harpenden, Hertfordshire and has spent most of her adult life in the West Country.

Debbie has drawn pictures from a very early age and has taught others to paint and draw for many years. She undertook her foundation studies at Watford School of Art, going on to do a graphic design degree at Leicester Polytechnic where she specialised in book illustration. This was followed by a post graduate certificate in education at Bristol.

Debbie's drawings have been described as quirky and whimsical, reflecting her sense of fun and the characteristics of the people she has known and observed in her life. Debbie hopes that her drawings bring joy and laughter to others.
